

## PRODUCT SPECIFICATION

|                                                       |                        |
|-------------------------------------------------------|------------------------|
| Product:                                              | FP1100 FB              |
| Quality:                                              | Cut Pile               |
| Pile Content:                                         | PA6 Nylon              |
| Backing:                                              | Felt Backing           |
| Pile Weight:                                          | 1200 g/m <sup>2</sup>  |
| Total Weight:                                         | 2,000 g/m <sup>2</sup> |
| Pile Height:                                          | 5.5mm                  |
| Total Height:                                         | 7mm                    |
| Fire Resistance:                                      | B1/Q1                  |
| Width:                                                | 2 Metres               |
| Felt backing is 100% PES weight: 200 g/m <sup>2</sup> |                        |
